About Arnaud Barchman Wuytiers van Vliet

Arnaud Barchman Wuytiers van Vliet is a Partner and *Avocat à la Cour* at AKD's Luxembourg office, where he co-heads the Banking & Finance practice.

He advises multinational clients, including banks, private equity houses, public and private corporations, on complex financing transactions across secured lending, high-yield debt issuances, securitisations, debt capital markets and financial regulatory and listing-related matters.

With extensive experience in both capital markets and banking-related mandates, Arnaud regularly structures and negotiates cross-border debt financings and securitisation transactions, and assists issuers and investors on securities law and disclosure obligations.

He has built over the years a recognised, knowledgeable and highly capable Banking & Finance team steadily increasing its presence in the Luxembourg legal market.

He is involved in the Luxembourg Capital Markets Association and has co-authored numerous key legal guides on finance, debt capital markets and securitisation in Luxembourg, contributing to thought leadership in one of Europe's most active financial centres.

Recognised by Legal 500 as a recommended lawyer and by IFLR1000 as a rising star partner, Arnaud is commended for his hands-on, solutions-oriented approach, technical depth and client engagement, particularly on securitisation and real estate-linked financings and cross-border debt capital markets mandates.

Arnaud's practice is characterised by a commitment to clarity and pragmatic execution — serving a diverse client base from private equity sponsors to institutional lenders.
