About Philippe Coulon

Philippe is a member of our investment funds team in Luxembourg.

His practice focuses on the structuring and setting-up of regulated investment funds across a wide range of asset classes, including real estate, private equity and hedge funds.

Philippe also advises asset managers on regulatory matters, including initial authorisation requirements, and he assists clients in tackling corporate governance challenges impacting their Luxembourg business.

On top of his expertise in the regulated field, Philippe has significant experience advising sponsors on the formation of unregulated investment vehicles and supporting institutional clients with their fund reviews from an investor's viewpoint.
