About Ruben Baeb

Ruben is an associate in AKD's Banking & Finance practice group. He advises all parties involved in a wide range of financing transactions, including lenders, borrowers, investors, shareholders, and project companies.

With expertise in both domestic and international financing transactions, Ruben handles a broad spectrum of financial matters, with a particular emphasis on leveraged finance, project finance, and real estate finance transactions. His experience encompasses the complexities of structuring and finalising high-value deals, ensuring that all legal and commercial considerations are comprehensively addressed.

Prior to joining AKD, Ruben worked at another leading Benelux law firm, where he advised on various large-scale project finance matters, with a focus on renewable energy and real estate financings.
